Tennessee Fire Chiefs Association
52nd Annual Conference
October 10 – 13, 2020

Embassy Suites, Murfreesboro, TN

Register Online at:
Attendees: https://cvent.me/9a7Kw4

Special Instructions: In accordance with public health recommendations, we will encourage use of face mask, social distancing, and encourage frequent hand hygiene. Safety measures will be implemented in accordance with local health recommendations at the time of the conference. The association will have limited supplies of mask available, and hand sanitizer, so we encourage members to bring their own mask. Thermometers will be available for temperature checks prior to entering the meeting room as well.

Saturday, October 10, 2020

Community Risk Reduction Workshop (Oakleigh BC) 1400 – 1600
State Fire Marshal’s Office – Fire Prevention Division
The training will bring customized community risk assessments for each department, which includes demographic information, incident reporting data, and housing stock information. We will then go through the CRR Plan process step by step. By the time the workshop concludes, each attendee should have a data-driven risk reduction plan for combating their jurisdiction’s unique challenges. Those interested can sign up here. FREE ADMISSION!

Sunday, October 11, 2020

Exhibitor Registration and Exhibitor Setup (Mirabella A-E/Outside) 0700 – 1130
Committee Meetings TBD
Registration
Lunch
Exhibits and Equipment Display Opens (Mirabella A-E/Outside) 1200 – 1730
“Decision Making” Attendees are immersed into the situations through highly interactive, ethical and moral discussion, and fast pace tactical decision making challenges with a learning element from court cases or actual fire scenes to see if the recommendations would have had a favorable outcome. The objective of the course is to broaden the view of the student from the perspective of situational awareness. They will leave the training event with a greater appreciation of what a Duty to Act means. They will see a deeper impact of the sequence of events from day to day policies and procedures and how they may directly impact both liability and life safety. The ultimate desire is to better align all ranks, working together to take ownership in the direction and decisions made on emergency scenes and non-emergency both at the fire station and off duty.  **FREE ADMISSION!**
